INVENTIONS AND INNOVATION PROGRAM, "FREE PISTON ENGINE-  
GENERATOR FOR HEV'S"**

Thank you for submitting your application to the 1998 Inventions and Innovation Program solicitation. DOE received over 500 applications in response to the announcement, and we sincerely appreciate the time and effort that was expended in preparing your application. I regret to inform you that your application was not selected for an award.

Your application was carefully reviewed according to the evaluation plan established by the Department of Energy for this solicitation. The reviews were conducted by three independent evaluators, consisting of one programmatic and two technical reviewers, in accordance with the evaluation criteria set forth in the solicitation.

Your application passed the responsiveness and eligibility reviews conducted by the Golden Field Office, and was submitted to the National Selection Panel for consideration. However, it did not receive the positive reviews necessary for a recommendation from the National Selection Panel. Please understand that this year's solicitation was highly competitive.

Although there is no appeal to this decision, a debriefing may be requested. Your request must be made in writing within fifteen (15) days from the date of this notification to the undersigned Contracting Officer.

Sincerely,

A handwritten signature in cursive script that reads "James P. Damm".
